

15 June 1944

Letter to Group Capt. Du Boulay

* * * * *

1. a. Captured Documents

Translated documents would be furnished in unabridged form. The only exception contemplated would be in cases where the contents of the document did not appear to be worth the time for translation when more worthy material was on hand. In such cases, an outline of contents would be made and published. Full translations would be made on request or in any slack period when the flow of material permitted.
